

Nelson Mandela School Climate Survey

Fall 2019

In October 2019, our scholars' parents and guardians took a climate survey focused on scholar safety, staff/scholar relationship, staff/parent relationship, behavior/consequences, and respect of staff and respect among scholars.

Some of our strengths include

- Parents, scholars, and staff are proud of this school
- Scholars feel safe at the school and in the classroom
- Administration is available to parents
- Staff communicates well with parents

What we can still work on

- Recognizing scholars for good behavior and success
- Providing families with more information about community support
- Increasing opportunities for parent involvement
- Communicating volunteer opportunities to parents

School Climate

	Strongly Agree And Agree	Strongly Disagree and Disagree
Teaching and Learning
